Reading should be a meaningful activity that is focused on comprehension and understanding. When students struggle with a specific subject matter, the underlying reason is often identified as under developed reading skills. The strategies in this course are imperative for all educators to help their students become proficient readers.

The first section helps teachers understand how to assess reading skills in the classroom and plan instruction accordingly. The second section equips educators to empower their students with confidence when handling tough text. The third section explores reading difficulties while introducing strategies for dealing with these issues and reducing the gap.
