All schools want their students to succeed, but they can only make a lasting difference when they focus on specific goals and strategies for change.

This course focuses on using school-wide initiatives to enhance student achievement across the curriculum. Such initiatives target academics, behavior, and any other area that might be lacking. Teachers are equipped to plan and implement such initiatives in an organized, focused, and inclusive way. The resources and strategies here empower them to raise levels of achievement by identifying the gaps, defining focus, creating effective strategies, building an environment that encourages reform, working in tandem with parents and students, and monitoring the desired change.
