Good teaching is both an art and a science. It requires a significant amount of planning, research, preparation, evaluation, and a whole lot of creativity. However, that doesn't mean teachers need to sacrifice their personal and family life for education. The key to "doing it all" and "doing it all well" is organization. A rested, relaxed, and organized teacher is an effective teacher.

This course is full of tips, tools, templates, and creative ideas to help teachers organize the classroom environment, classroom activities, assessments, and other class events. Organized teachers can take practical steps to manage stressful days and avoid time crunches, creating a positive impact on both themselves and their students.
